A Bibliography of autistic authors

Amanda M Baggs

Abstract

A list of autistic authors, previously published on autistics.org. This was originally part of the library of articles available on the Autistics.org web site and therefore the references are not to any particular academic style. Although the list is not up to date it is nonetheless worth wider publication as it contains a valuable number of references not to be found collected elsewhere, and it is the editors consideration that they should be more widely known.

Keywords

Autism; Neurodiversity

For Autistic Book Party and for general curiosity purposes, here’s a list of all the autistic speculative fiction books I’m aware of. This means either spec fic with one or more autistic characters, or spec fic by authors who openly identify as autistic. (Some autistic authors don’t want to be known as autistic authors, for various reasons. This is fine. But, sadly, it means I cannot list those authors here.) I don’t necessarily endorse all of these books. Most of them are books I haven’t read. I’ll probably never get done reviewing the whole list, but it will be updated with reviews as neces How to Write a Bibliography for a Research Paper. Writing a bibliography is easy by following the format outlined in this article. Learn how to properly cite different resources in the bibliography of a research paper, and how to format those citations, for books, encyclopedias, films, websites, and people. numerous
A bibliography is a list of the sources you used to get information for your report. It is included at the end of your report, on the last page (or last few pages). How to get started writing your bibliography.
